

WHY CHOOSE A STREAMLINE CARPORT?

Made with strong and sustainable PurlinDek steel roofing, our exclusive designs provide unparalleled strength and rigidity. By stripping out unsightly fixtures and excess components, we have created a streamlined modular design that maximises form without compromising function. An innovative design that offers incredible ease of installation backed with a 10 Year structural warranty, and reassurance that these are built in New Zealand, for New Zealand!"

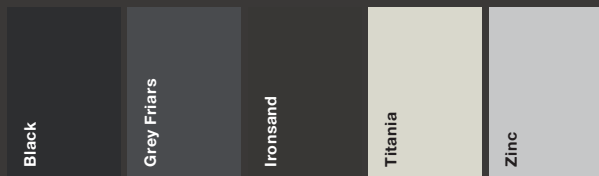

THE PROVEN KITSET SYSTEM

NO BUILDING CONSENT REQUIRED!

Easy installation is everyone's priority! Streamline carports can guarantee easy install with just 3 main components, roofing iron, fascia/gutter and posts. What more could you need in a carport? We've got you covered, with easy install, New Zealand made product and quality steel!"

NONE OF THE KITSETS SUIT YOUR SPACE?

We can still help! As New Zealand's only custom carport supplier, we always have something for your needs. From adding clearlites, to changing up colours, longer lengths, wider widths or extra height, we can help. GET IN TOUCH TODAY!

NZ'S MOST LOVED CARPORT!

A superior product with its strength and durability from PURLINDEK®

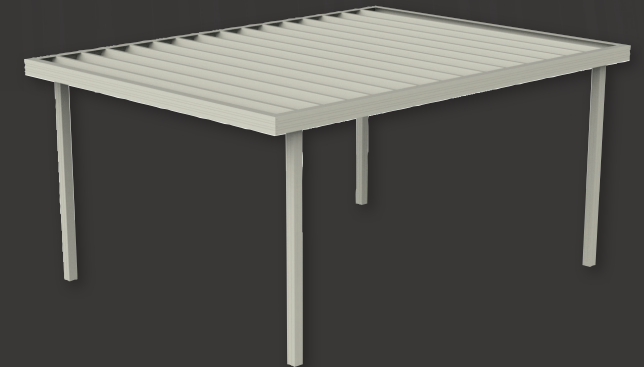

PurlinDek® is a cold rolled metal profile with a 6 metre load-bearing span capability, designed for use as long span roofing. The strength of PurlinDek's patented profile means less purlins, fixings and labour are required for the construction, resulting in time and cost savings!
